COMPANY OVERVIEW

Jaysmart Limited is a fast-growing and innovative **ICT solutions provider** based in Dar es Salaam, Tanzania, with a strong presence in Dodoma and Zanzibar. We offer a wide range of ICT products, high-speed internet connectivity as an **official Vodacom agent, and custom website development services** — including responsive business websites, e-commerce platforms, portals, and tailored digital solutions designed to meet the evolving needs of modern businesses, institutions, and startups.

Our main office is located at Mwenge, Bagamoyo Road, 1st Floor, Mpembeni House, Dar es Salaam.

As an accredited Vodacom supplier (**Supplier ID: 0300192440**), Jaysmart combines international standards with local insight to drive digital transformation and deliver real impact across Tanzania.

INTRODUCTION

OUR MISSION AND VISION

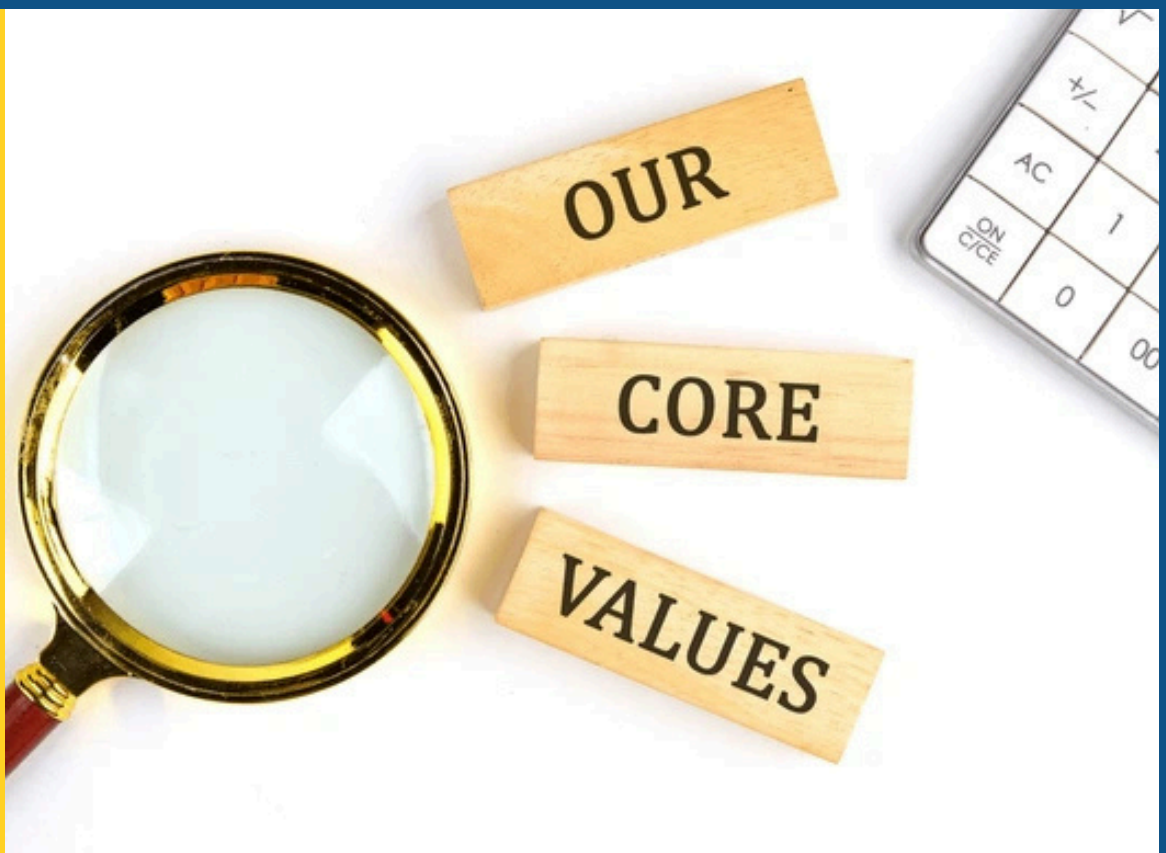

Jaysmart delivers dependable internet, best-in-class ICT products, and creative digital solutions tailored to the daily needs of Tanzanian clients. We aim to accelerate growth, efficiency, and innovation across all sectors, including finance, health, education, and government, with a focus on technical excellence and customer collaboration.

To power East Africa's transformation by providing trusted, accessible, and innovative ICT solutions—bridging the digital divide, advancing growth for all sectors, and shaping a technology-driven future.

CORE VALUE

- **Integrity:** Building long-term, trusted relationships with transparent, ethical business practices.
- **Innovation:** Adopting and delivering the latest technology to our clients.
- **Reliability:** Fulfilling every promise with robust products and responsive support.
- **Customer Focus:** Placing our clients' needs first in every solution.
- **Teamwork:** Fostering collaboration internally and externally.
- **Continuous Learning:** Investing in ongoing training and capacity building.

OUR SERVICES

01 INTERNET SOLUTIONS (VODACOM AGENT)

As a Vodacom-accredited supplier (Supplier ID: 0300192440), Jaysmart Solutions proudly delivers state-of-the-art mobile and broadband internet services tailored for homes, businesses, educational institutions, NGOs, and government departments.

Leveraging our direct access to Vodacom's evolving technology stack, including the latest 4G and 5G infrastructure, we ensure:

- *Lightning-fast internet speeds with stable and secure connections*
- *Full support for M-Pesa mobile money integration, enabling easy financial transactions and bill payments*
- *On-site and remote SIM card registration and activation services in compliance with Vodacom policies*
- *Tailored business internet and data packages designed to meet specific operational needs*
- *Ongoing technical assistance and expert aftersales support to keep your services running smoothly*

Whether you're setting up internet in a small office or need enterprise-level solutions, Jaysmart delivers reliable, scalable, and cost-effective connectivity to power your digital growth.

Require Support?

Did you know that you can raise a ticket via the Help section at the top right of an screen?

You are receiving this email because Vodafone has identified you as the appropriate contact for this correspondence. Should you have any questions or need support, click on "Help" from your profile icon located on the top-left corner of the SARM application.

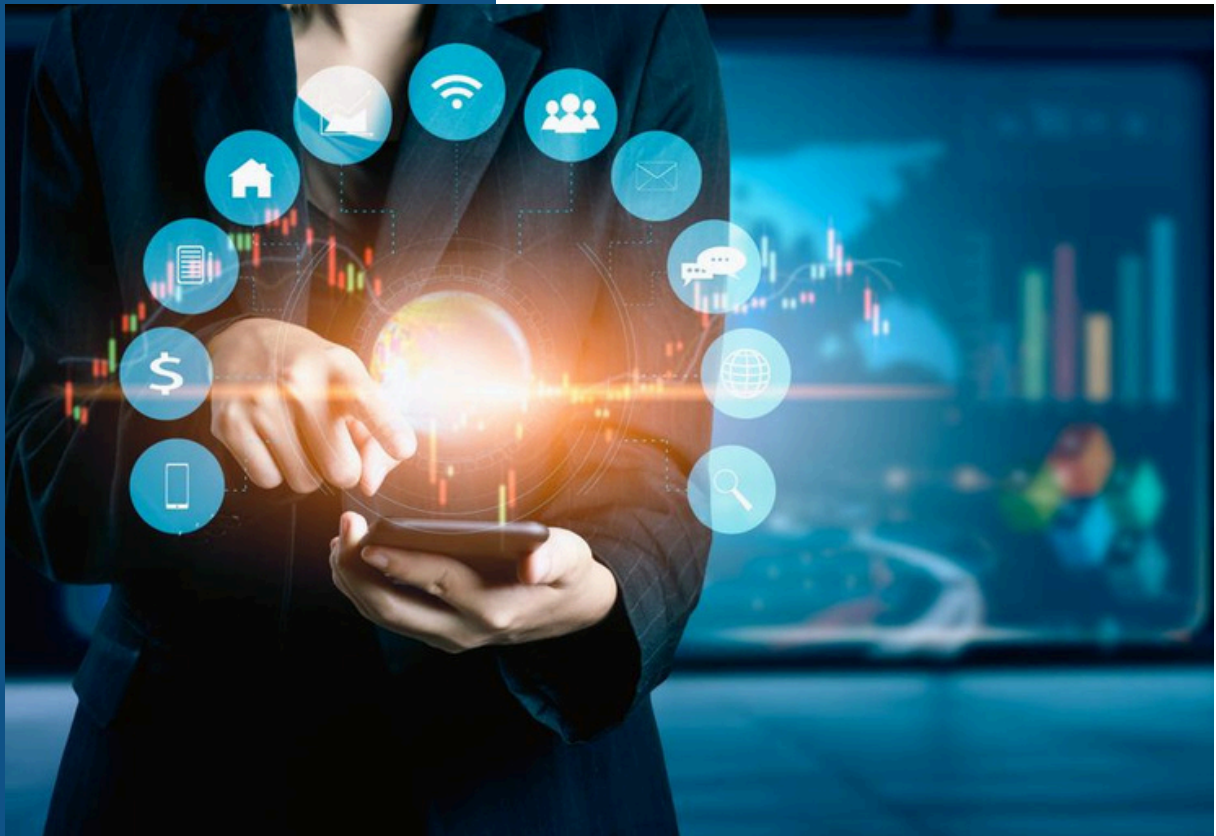

INDUSTRY EXPERIENCE

We have implemented projects for banking, healthcare, education, non-profit, government, and fast-growing SMEs. Our track record includes broadband rollouts, digital infrastructure deployments, secure networks, web portals, and ICT equipment delivery for dozens of organizations.

TECHNOLOGY & INNOVATION

Jaysmart invests in advanced technology and people. We harness emerging digital tools, cloud services, AI, and automation to deliver secure, scalable, user-friendly solutions. Our team keeps pace with trends and compliance requirements, aligning with Tanzania's digital vision and growth policies.

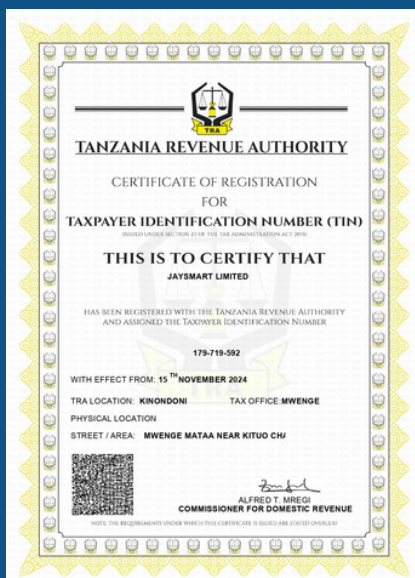

ACHIEVEMENTS & MILESTONES

- Vodacom Supplier Accreditation: Officially approved supplier (Supplier ID: 0300192440)
- Over 100 Broadband Deployments: Across business, education, healthcare, and government sectors
- Corporate Web Solutions: Delivered 100+ tailor-made digital projects for East African clients
- Client Retention: Over 90% repeat business rate; high satisfaction scores

LEGAL COMPLIANCE & CERTIFICATIONS

- Registered under BRELA (Business Registrations and Licensing Agency)
- TIN registered with the Tanzania Revenue Authority
- Licensed to operate ICT services by appropriate government authorities
- ISO and ICT Commission registration in progress
- Strict compliance with national data privacy and digital security laws

PORTFOLIO & CASE STUDIES

- Broadband infrastructure for urban and rural schools (2024/25)
- E-commerce websites and POS integration for local retailers
- Secure intranet and cloud solutions for healthcare providers
- Digital transformation for government departments, including rollout of e-services
- Client testimonials and visual samples are available on request

QUALITY ASSURANCE & CUSTOMER CARE

All services are backed by Service Level Agreements (SLAs), with guaranteed response times and multi-channel support (email, phone, WhatsApp). We use stringent quality checks for all installs, maintain customer satisfaction surveys, and offer warranty and support packages for every client.

WHY CHOOSE JAYSMART?

- Official Vodacom-accredited supplier—premium network access and technical support
- Locally owned, with international best practices and strong government compliance
- Team of certified experts providing end-to-end ICT and internet solutions
- Focus on innovation, reliability, and inclusive socio-economic impact
- Personalized service for each client and sector

Thank you for taking the time to learn about Jaysmart.

We look forward to collaborating with you and delivering innovative ICT, internet, and web development solutions that drive real impact across sectors.
